OBJECTIVE

Computer Engineering student with hands-on experience in full-stack web development using the MERN stack. Skilled in React.js, Next.js, JavaScript, Node.js, and MongoDB, with experience building responsive web applications and REST APIs. Passionate about creating scalable solutions and continuously expanding technical expertise

EDUCATION

Bachelor of Computer Science, Eastern Region Campus IOE , TU

2022- 2026

SKILLS

Programming Language	Javascript, Python, C, C++
Frontend	React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, REST APIs
AI tools	Hugging Face, Stable Diffusion (SDXL), Prompt Engineering
Tools	Git, GitHub, VS Code, Postman
Soft Skills	Communication, Problem-Solving, Research and Documentation, Teamwork

EXPERIENCE

TrendMorph | Final Year Project ([Link](#))

Jan 2025 – May 2025

AI Integration & Frontend Developer

Eastern Region Campus, IOE, TU

- Developed responsive interfaces using React.js, Next.js, and TypeScript, improving overall user experience.
- Fine-tuned and integrated a Stable Diffusion XL (SDXL) model via Hugging Face to generate images from user prompts.
- Connected AI-generated visuals with real-time trending topics from YouTube, Reddit, and X (Twitter).

PROJECTS

E-Commerce Website ([Link](#)) | MongoDB, Express.js, React.js, Node.js, Redux Toolkit, JWT, REST API

- Built a full-stack clothing e-commerce application that enables users to explore and purchase products online.
- Developed secure authentication, cart management, and product management features for a seamless shopping experience.

Smart Face Attendance System ([Link](#)) | HTML, CSS, JavaScript, Python, Django, OpenCV, SQLite

- Designed and developed a responsive React.js-based dashboard for real-time attendance tracking, filtering, and reporting.
- Engineered a real-time face recognition system for significantly reducing proxy attendance .

Student Management System ([Link](#)) | HTML, CSS, JAVASCRIPT, PHP, MySQL

- Built a scalable, responsive full-stack web application for managing student records with CRUD operations and CSV export functionality.
- Implemented course-wise attendance tracking system and structured reporting features.

WORKSHOPS & TRAINING

Full Stack Web Development | Association of Computer Engineering Students (ACES)

- Completed hands-on training covering HTML, CSS, JavaScript, Node.js, and React.js. Built practical projects with component-based UI development and REST API integration.

Python Programming | Electronics and Communication Engineering Student Society, Nepal

- Completed training in Python covering core syntax, data types, control flow, and functions; applied concepts through mini projects and practical exercises.
